

## Home Performance Solutions

from Columbia Gas of Ohio can help you **reduce your use of natural gas by as much as 30%**, whether you own or rent your home.

Receive a **low-cost Home Energy Audit** and **generous rebates** to make qualified energy efficiency improvements.

You will benefit most from this program if your gas-heated home uses 1,000 Ccf of natural gas or more per year.

Check your bill for your gas usage information.

## Start saving money and energy today!

**Home Performance Solutions** is just one of the ways we're helping our gas-heating customers save money and enjoy a more comfortable, safe home.

## It starts with a Home Energy Audit.

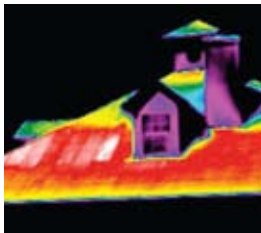

**A highly-trained Home Energy Auditor** analyzes your home from top to bottom to identify ways you can make your home more comfortable and energy efficient.

**A blower door** locates and measures air leaks.

**A combustion efficiency analyzer** checks gas stoves, gas furnaces and water heaters for safety and efficiency.

**Infrared photography** pinpoints areas of inadequate insulation levels, air leaks and other problems.

The cost of the Home Energy Audit is \$50 (\$20 for income-eligible customers\*).

**A \$500 VALUE**

\* Call 1-877-644-6674 for details.

\*\* Installed where appropriate—**at no charge.**

\*\*\* Estimated costs are provided as examples only.

## Qualified energy efficiency improvements may include:

- Attic and wall insulation upgrades
- Sealing cracks, gaps and holes
- High-efficiency gas furnace or boiler
- Programmable thermostat\*\*
- High-performance, energy-efficient showerhead\*\*

## Rebates

The more qualified energy efficiency improvements you make, the more you save with **rebates of up to 70% off** the cost of the work. Plus, you'll enjoy lower monthly energy bills for years to come.

## How do the rebates work?

### Standard Rebate:

- Wall insulation - \$0.40/square foot insulated
- Attic insulation - from \$0.30 to \$0.50/square foot insulated
- Air sealing - \$40/air sealing hour
- High-efficiency heating system - \$200 for replacement natural gas furnace ≥ 92% AFUE or natural gas boiler ≥ 90% AFUE

### Example:

|                                  |         |
|----------------------------------|---------|
| 1,000 sq. ft. of wall insulation |         |
| Estimated installation cost***   | \$1,050 |
| Rebate @ \$0.40/sq. ft.          | - \$400 |

**Final Cost after Rebate**

**\$ 650**

**Bonus Rebates** are available when more than one qualified energy efficiency improvement is installed. **Additional rebates** are available for income-eligible customers.

## Here's how to start saving money with Home Performance Solutions:

- 1. Schedule** your Home Energy Audit by calling toll-free **1-877-644-6674**.
- 2. Review your Home Energy Audit Report** that provides your qualified energy efficiency improvements, estimated savings and eligible rebates.
- 3. Contact a pre-qualified contractor** to install qualified energy efficiency measures and receive rebates. The energy auditor will provide you with a list of pre-qualified contractors<sup>†</sup> who can do the work.

<sup>†</sup> To participate in this program, these contractors must meet special training, equipment and program guidelines.
