

What do we
do to keep
you **safe?**

Columbia Gas®
A NiSource Company

You may not notice what we do for safety.

But each day, employees in your community take action to protect you and your family.

Here are just a few steps:

- › Replacing thousands of miles of gas lines since 2008, cutting leaks by almost 40%.
- › Inspecting every inch of our lines and all 1.4 million meters.
- › Giving emergency responders and our employees realistic training at our state-of-the-art training center.

Making a Stink

We add that nasty “rotten egg” odor to natural gas for your safety. Make sure everyone in your family knows that awful smell.
